

# 1<sup>st</sup> class

\* Remember to always start with the units first before moving to the tens.

P. 92

B. Add with tens and units.

1. T U

$$\begin{array}{r} 23 \\ + 06 \\ \hline 29 \end{array}$$

Don't forget to write in the zero.

2. T U

$$\begin{array}{r} 13 \\ + 05 \\ \hline 18 \end{array}$$

P. 94

Write 't' (tens) 'u' (units) over the numbers.

For example,

$$\begin{array}{r} \text{T U} \quad \text{T U} \\ 21 + 17 = \boxed{38} \end{array}$$

$$\begin{array}{r} \text{T U} \quad \text{T U} \\ 33 + 25 = \boxed{58} \end{array}$$

$$\begin{array}{r} \text{T U} \quad \text{T U} \\ 41 + 13 = \boxed{54} \end{array}$$
